In Brief

I am an engineer specializing in artificial intelligence, signal processing, and Python development. I consult with businesses looking to integrate AI into their operations and offer provide Python development services. Additionally, I provide independent, technology-driven assessments to help companies identify system-wide challenges and implement practical, effective solutions. Previously, I conducted academic research in deep learning, learning theory, and video compression. I also co-founded Radiobooks, a project that leverages AI text-to-speech technology to make more books accessible in audio format.

Outside the scope of my scientific expertise, I dedicate my time to exploring philosophy, psychology, meditation, ethics, and social systems. I find joy in tackling problems holistically, drawing inspiration from both ancient and modern wisdom, and considering the entire pipeline from philosophical and scientific inquiry to practical application. I appreciate engaging in thoughtful discussions, being exposed to different points of view, and—when suitable—sharing the little I know with others.

Having started traveling at a young age, I've been fortunate to have explored more than 30 countries. I speak Portuguese and English fluently, have a conversational level of Spanish, and I can get by in French.

Please note that I will be attending a course in philosophy and meditation at the Tergar Institute in Nepal between mid-September and mid-December in both 2024 and 2025.

Education

Present Sep 2023	<p>Course in Philosophy and Meditation Tergar Institute, Kathmandu, Nepal</p> <p>Head Teacher: Mingyur Rinpoche. Project: Communicating Emptiness. <i>The course will continue on-site between mid-September and mid-December 2024.</i></p>
Feb 2020 Sep 2016	<p>MSc in Communication Systems EPFL (École Polytechnique Fédérale de Lausanne), Lausanne, Switzerland</p> <p>School: School of Computer and Communication Sciences. Specialization: signal processing and artificial intelligence. Master's thesis: Higher-Order Regularization Methods for Supervised Learning. Grade: 5.67/6.00 — Ranking: 2nd/31.</p>
Jul 2016 Sep 2013	<p>BSc in Electrical and Computer Engineering Universidade de Lisboa, Lisbon, Portugal</p> <p>School: Instituto Superior Técnico. Grade: 16.4/20.00.</p>

Work experience

May 2024 Sep 2024	Independent IT Consultant Germano de Sousa , Lisbon, Portugal
	Subject: Independent operations and technology assessment. <ul style="list-style-type: none">• Conducted an independent evaluation to help the company identify challenges and implement effective solutions across diverse areas such as data analytics and project management.• Delivered monthly presentations to top management.• The project concluded with the preparation of a Request for Proposal.
Aug 2022 Jan 2024	Co-Founder and CTO Radiobooks , Lisbon, Portugal
	Subject: Converting books into audiobooks automatically using Artificial Intelligence. <ul style="list-style-type: none">• Designed and built an app for revising AI-generated audio.• Tech stack: Python, FastAPI, MongoDB, Pytest, Docker, GitHub Actions, Codecov, Fly.io, AWS S3, and Better Stack.
Sep 2021 Apr 2020	Research and Teaching Assistant Biomedical Imaging Group , EPFL, Lausanne, Switzerland
	Subject: Supervised Learning with Sparsity-Promoting Regularization. <ul style="list-style-type: none">• Developed a novel framework to learn the activation functions of a neural network;• Designed a spline-based supervised learning method which constructs piecewise-linear models with few regions (sparse).
Aug 2018 Mar 2019	Research Intern Disney Research Studios , Zurich, Switzerland
	Subject: Image and Video Compression using Deep Learning. <ul style="list-style-type: none">• Developed the first content-adaptive neural image compression scheme;• Aided in the construction of a state-of-the-art neural video compression framework.

Teaching experience

Sep 2021 Apr 2020	Teaching Assistant in the Courses Signals and Systems I & II EPFL (École Polytechnique Fédérale de Lausanne), Lausanne, Switzerland
	Taught by Prof. Michael Unser to the Life Sciences and Microengineering sections.
Sep 2021 Apr 2020	Supervision of Master Semester Projects EPFL (École Polytechnique Fédérale de Lausanne), Lausanne, Switzerland
	Co-supervisor of two Master semester projects on lipschitz-constrained GANs .

Skills

Expertise:	Theoretical and practical aspects of machine learning, deep learning, and signal processing; Python development.
DevOps:	Python, C, FastAPI, Pytest, PyTorch, CI/CD, Bash, Linux, MongoDB, Docker, Github Actions, Codecov, AWS, Fly.io, Better Stack
Languages:	Portuguese, English (professional), Spanish (advanced), French (conversational).

The publications can be consulted [here](#).
