## In Brief

---

I am an engineer specializing in artificial intelligence, signal processing, and Python development. I consult with businesses looking to integrate AI into their operations and offer provide Python development services. Additionally, I provide independent, technology-driven assessments to help companies identify system-wide challenges and implement practical, effective solutions. Previously, I conducted academic research in deep learning, learning theory, and video compression. I also co-founded Radiobooks, a project that leverages AI text-to-speech technology to make more books accessible in audio format.

Outside the scope of my scientific expertise, I dedicate my time to exploring philosophy, psychology, meditation, and ethics. I find joy in tackling problems holistically, drawing inspiration from both ancient and modern wisdom, and considering the entire pipeline from philosophical and scientific inquiry to practical application. I appreciate engaging in thoughtful discussions, being exposed to different points of view, and—when suitable—sharing the little I know with others.

*I'm actively seeking new job opportunities. Please note that I will likely be attending a course on Buddhist philosophy and meditation in Nepal between mid-September and mid-December 2025.*

## Education

---

Present Sep 2023	<p>Course in Philosophy and Meditation <a href="#">Tergar Institute</a>, Kathmandu, Nepal</p> <p>Head Teacher: Mingyur Rinpoche. Project: <a href="#">Communicating Emptiness</a>. <i>The course will continue on-site between mid-September and mid-December 2025.</i></p>
Feb 2020 Sep 2016	<p>MSc in Communication Systems <a href="#">EPFL</a> (École Polytechnique Fédérale de Lausanne), Lausanne, Switzerland</p> <p>School: <a href="#">School of Computer and Communication Sciences</a>. Specialization: signal processing and artificial intelligence. Master's thesis: <a href="#">Higher-Order Regularization Methods for Supervised Learning</a>. Grade: 5.67/6.00 — Ranking: 2nd/31.</p>
Jul 2016 Sep 2013	<p>BSc in Electrical and Computer Engineering <a href="#">Universidade de Lisboa</a>, Lisbon, Portugal</p> <p>School: <a href="#">Instituto Superior Técnico</a>. Grade: 16.4/20.00.</p>

## Work experience

---

May 2024 Sep 2024	<b>Independent IT Consultant</b> <a href="#">Germano de Sousa</a> , Lisbon, Portugal
	Subject: Independent operations and technology assessment. <ul style="list-style-type: none"><li>• Conducted an independent evaluation to help the company identify challenges and implement effective solutions across diverse areas such as data analytics and project management.</li><li>• Delivered monthly presentations to top management.</li><li>• The project concluded with the preparation of a Request for Proposal.</li></ul>
Aug 2022 Jan 2024	<b>Co-Founder and CTO</b> <a href="#">Radiobooks</a> , Lisbon, Portugal
	Subject: Converting books into audiobooks automatically using Artificial Intelligence. <ul style="list-style-type: none"><li>• Designed and built an app for revising AI-generated audio.</li><li>• Tech stack: Python, FastAPI, MongoDB, Pytest, Docker, GitHub Actions, Codecov, Fly.io, AWS S3, and Better Stack.</li></ul>
Sep 2021 Apr 2020	<b>Research and Teaching Assistant</b> <a href="#">Biomedical Imaging Group</a> , EPFL, Lausanne, Switzerland
	Subject: Supervised Learning with Sparsity-Promoting Regularization. <ul style="list-style-type: none"><li>• Developed a novel framework to learn the activation functions of a neural network;</li><li>• Designed a spline-based supervised learning method which constructs piecewise-linear models with few regions (sparse).</li></ul>
Aug 2018 Mar 2019	<b>Research Intern</b> <a href="#">Disney Research Studios</a> , Zurich, Switzerland
	Subject: Image and Video Compression using Deep Learning. <ul style="list-style-type: none"><li>• Developed the first content-adaptive neural image compression scheme;</li><li>• Aided in the construction of a state-of-the-art neural video compression framework.</li></ul>

## Teaching experience

---

Sep 2021 Apr 2020	<b>Teaching Assistant in the Courses Signals and Systems I &amp; II</b> <a href="#">EPFL</a> (École Polytechnique Fédérale de Lausanne), Lausanne, Switzerland
	Taught by Prof. Michael Unser to the Life Sciences and Microengineering sections.
Sep 2021 Apr 2020	<b>Supervision of Master Semester Projects</b> <a href="#">EPFL</a> (École Polytechnique Fédérale de Lausanne), Lausanne, Switzerland
	Co-supervisor of two Master semester projects on <a href="#">lipschitz-constrained GANs</a> .

## Skills

---

Expertise:	Theoretical and practical aspects of machine learning, deep learning, and signal processing; Python development.
DevOps:	Python, C, FastAPI, Pytest, PyTorch, CI/CD, Bash, Linux, MongoDB, Docker, Github Actions, Codecov, AWS, Fly.io, Better Stack
Languages:	Portuguese, English (professional), Spanish (advanced), French (conversational).

The publications can be consulted [here](#).
